# Welcome To Our Voter Management Application

Welcome to the future of smart voter management!

Our application is designed to make organizing, analyzing, and connecting with voters easier than ever before. With powerful tools, clean navigation, and intelligent automation, you get everything you need to manage voter data with speed, accuracy, and confidence. Whether you're a candidate, campaign manager, or field coordinator, our app helps you work smarter—not harder. From advanced voter search to personalized voter ID cards, every feature is built to simplify your workflow and boost your campaign's efficiency.

Step inside, explore the dashboard, and experience a seamless way to manage voters, build relationships, and elevate your election strategy. Let's get started—your smart voter management journey begins here.

# Create Profile

---

01

## Upload Your Election Symbol

Add the symbol that represents your campaign or identity.

02

## Add Your Campaign Slogan

Your slogan will be displayed on voter cards and campaign visuals.

03

## Create a Username & Password

These credentials will be used every time you log in.

02

## Enter Candidate Name

This name will appear across your dashboard and voter materials.

04

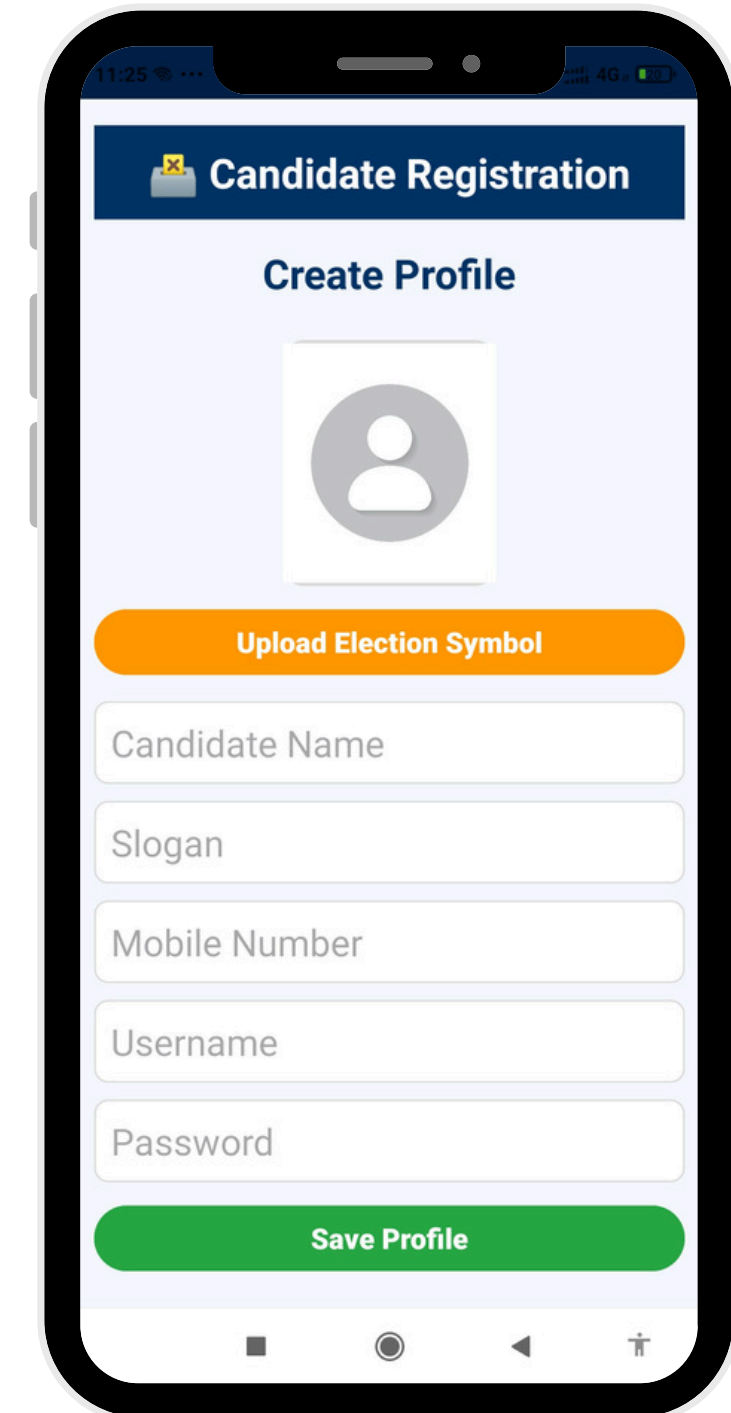

## Provide Your Mobile Number

Used for contact verification and campaign communication.

06

## Save Your Profile

Your profile will now appear on the home screen and can be edited anytime in the Settings section.

The image shows a smartphone screen with the 'Candidate Registration' app. The app has a dark blue header with a yellow envelope icon and the text 'Candidate Registration'. Below the header is a light blue section titled 'Create Profile'. In the center of this section is a white square with a grey person icon. Below the icon is an orange button labeled 'Upload Election Symbol'. Underneath are five white input fields with grey placeholder text: 'Candidate Name', 'Slogan', 'Mobile Number', 'Username', and 'Password'. At the bottom of the form is a green button labeled 'Save Profile'. The smartphone's status bar at the top shows the time '11:25', signal strength, and '4G' connectivity. The bottom of the screen shows the standard Android navigation bar with back, home, and recent apps icons.

# Search Voter

## Smart Voter Search

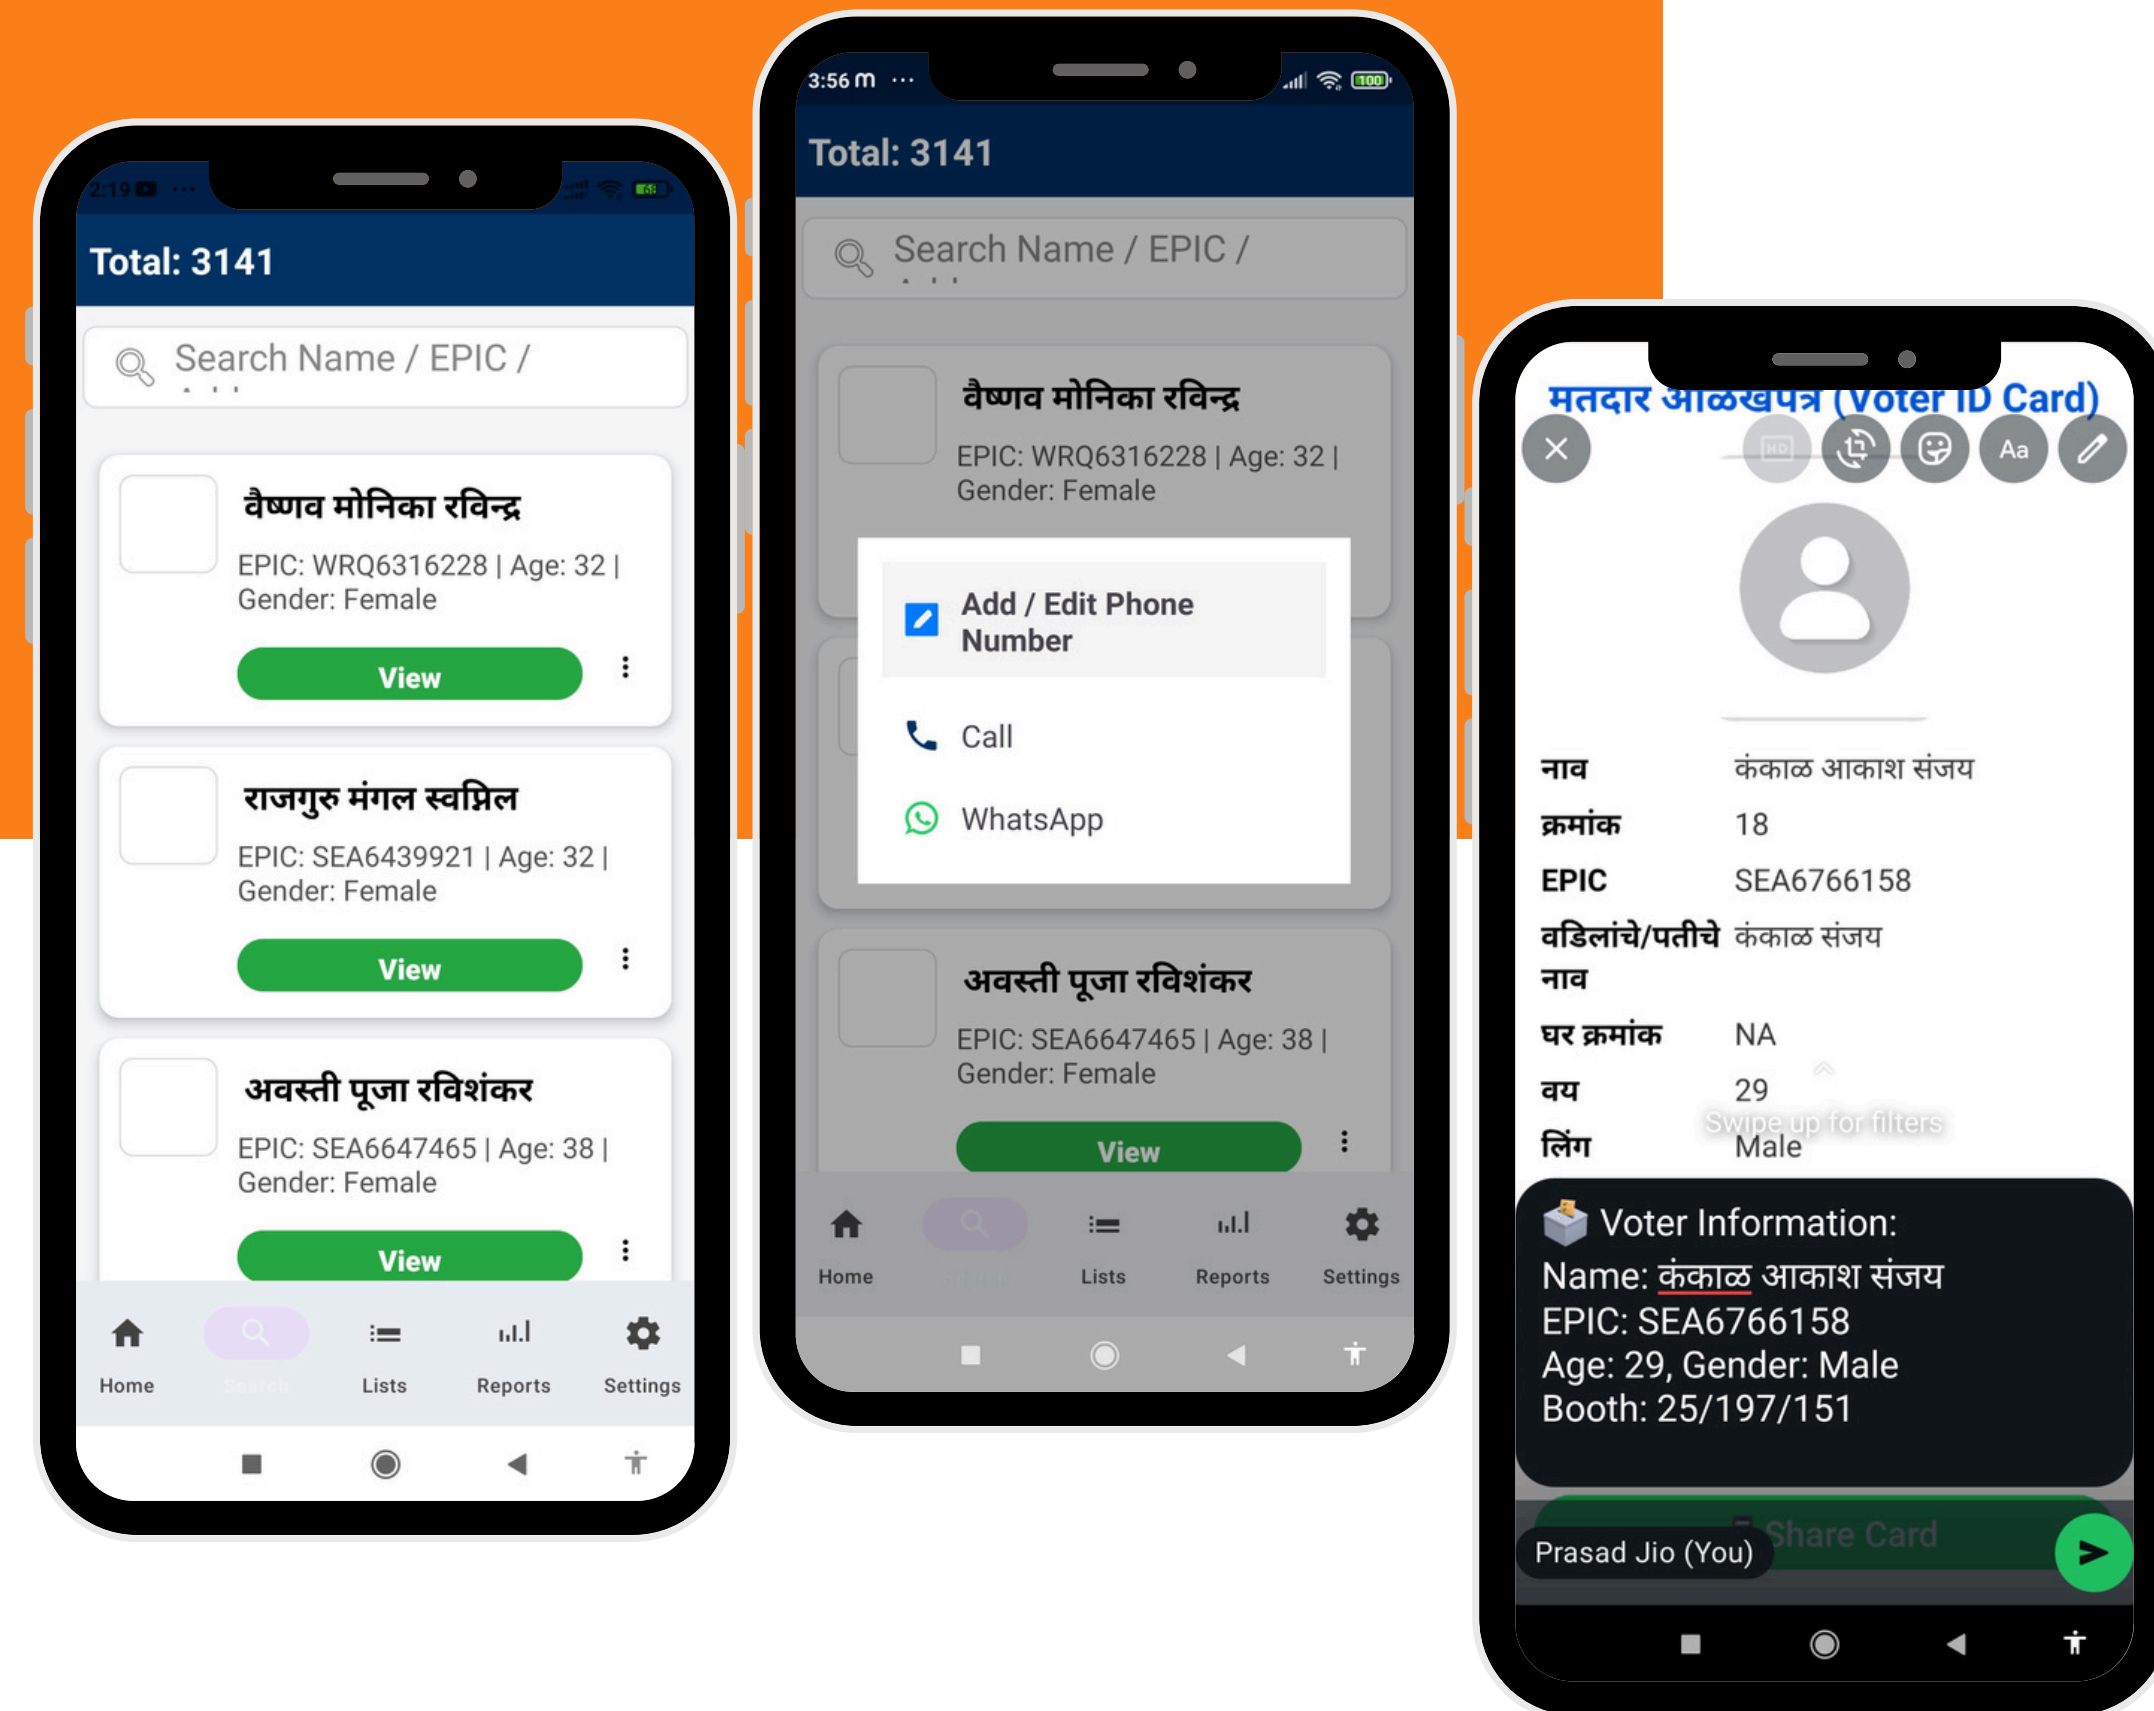

Easily find any voter using available data such as surname, full name, EPIC number, and more.

## Add Voter Contacts

Save and manage contact details for each voter directly from the search results.

## Create & Share Voter Cards

Generate personalized voter cards featuring your custom candidate name, slogan, contact details, and election symbol. Share instantly on WhatsApp or download for printing.

# List Voters with Filters

01

**District / Parliamentary Code**  
View voters grouped by district or parliamentary area

02

**Assembly Constituency**  
Narrow down data to a specific assembly constituency.

03

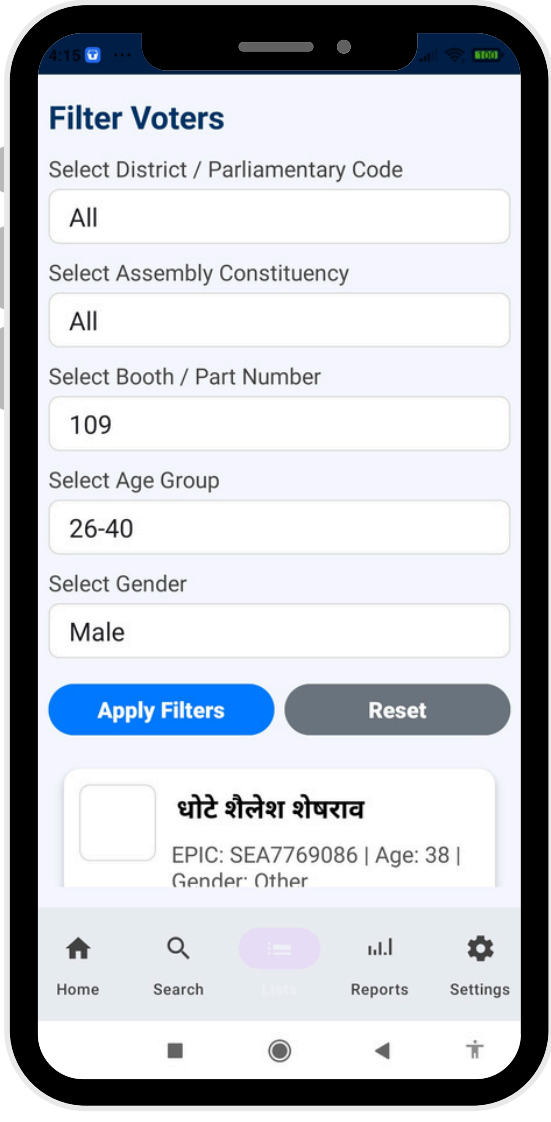

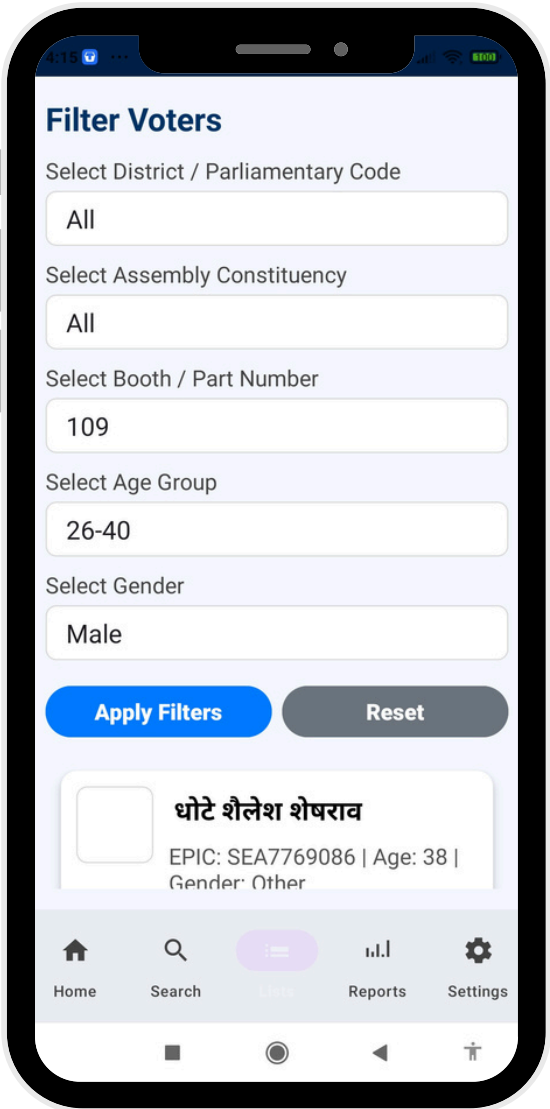

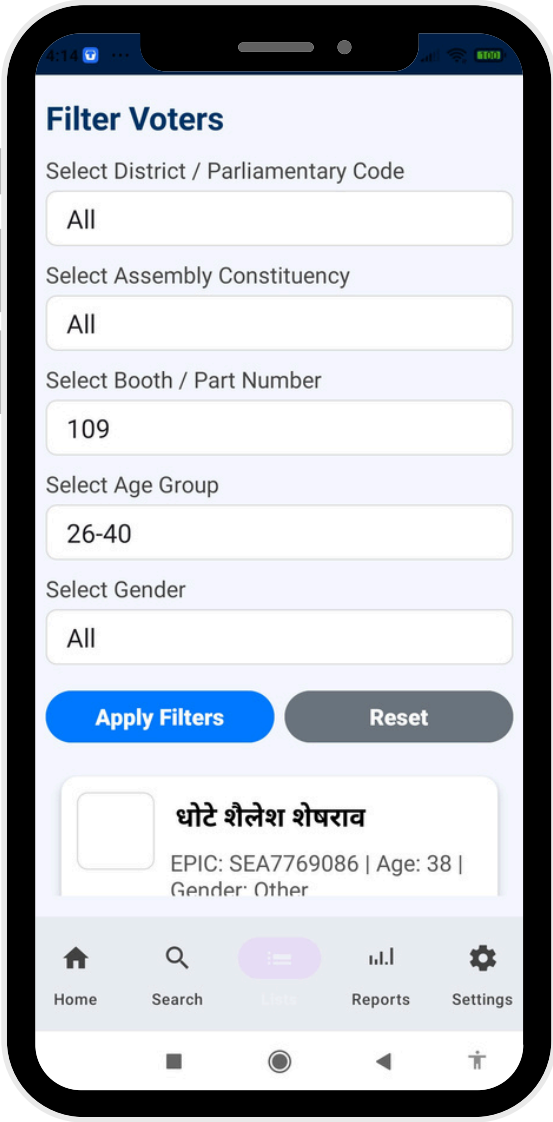

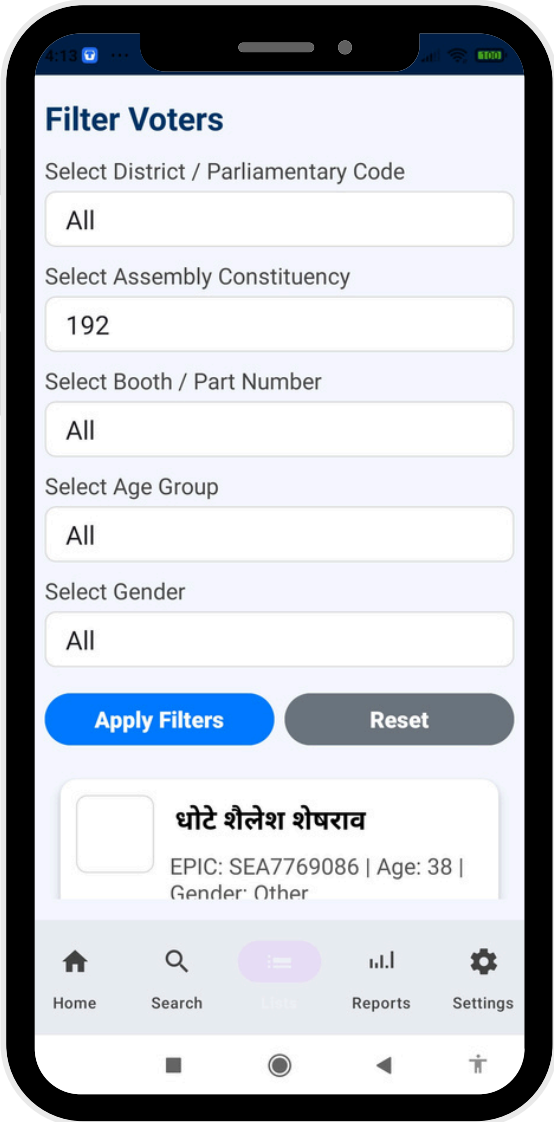

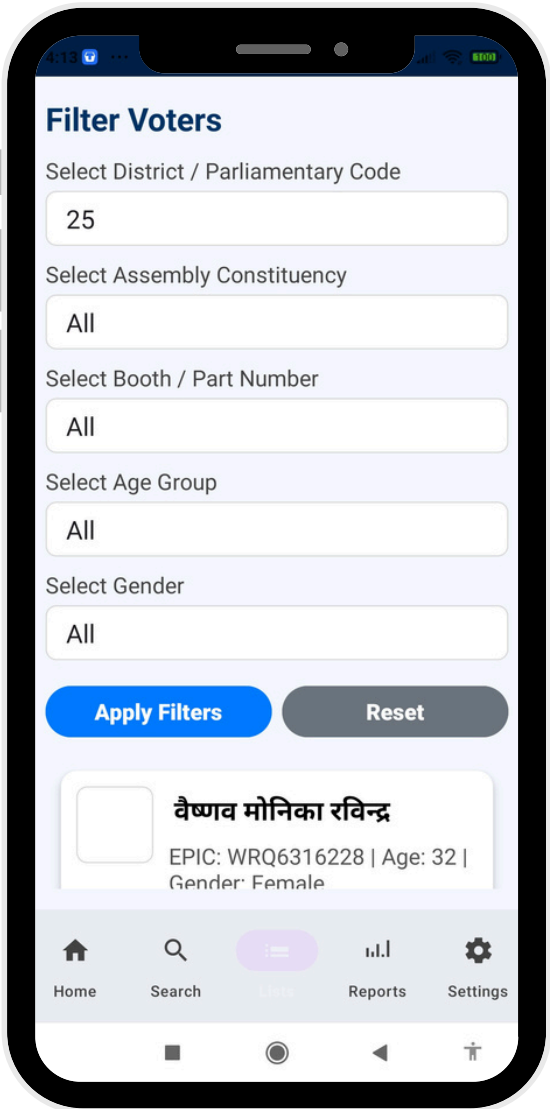

**Booth / Part Number**  
Quickly filter voters by booth or part number for precise mapping.

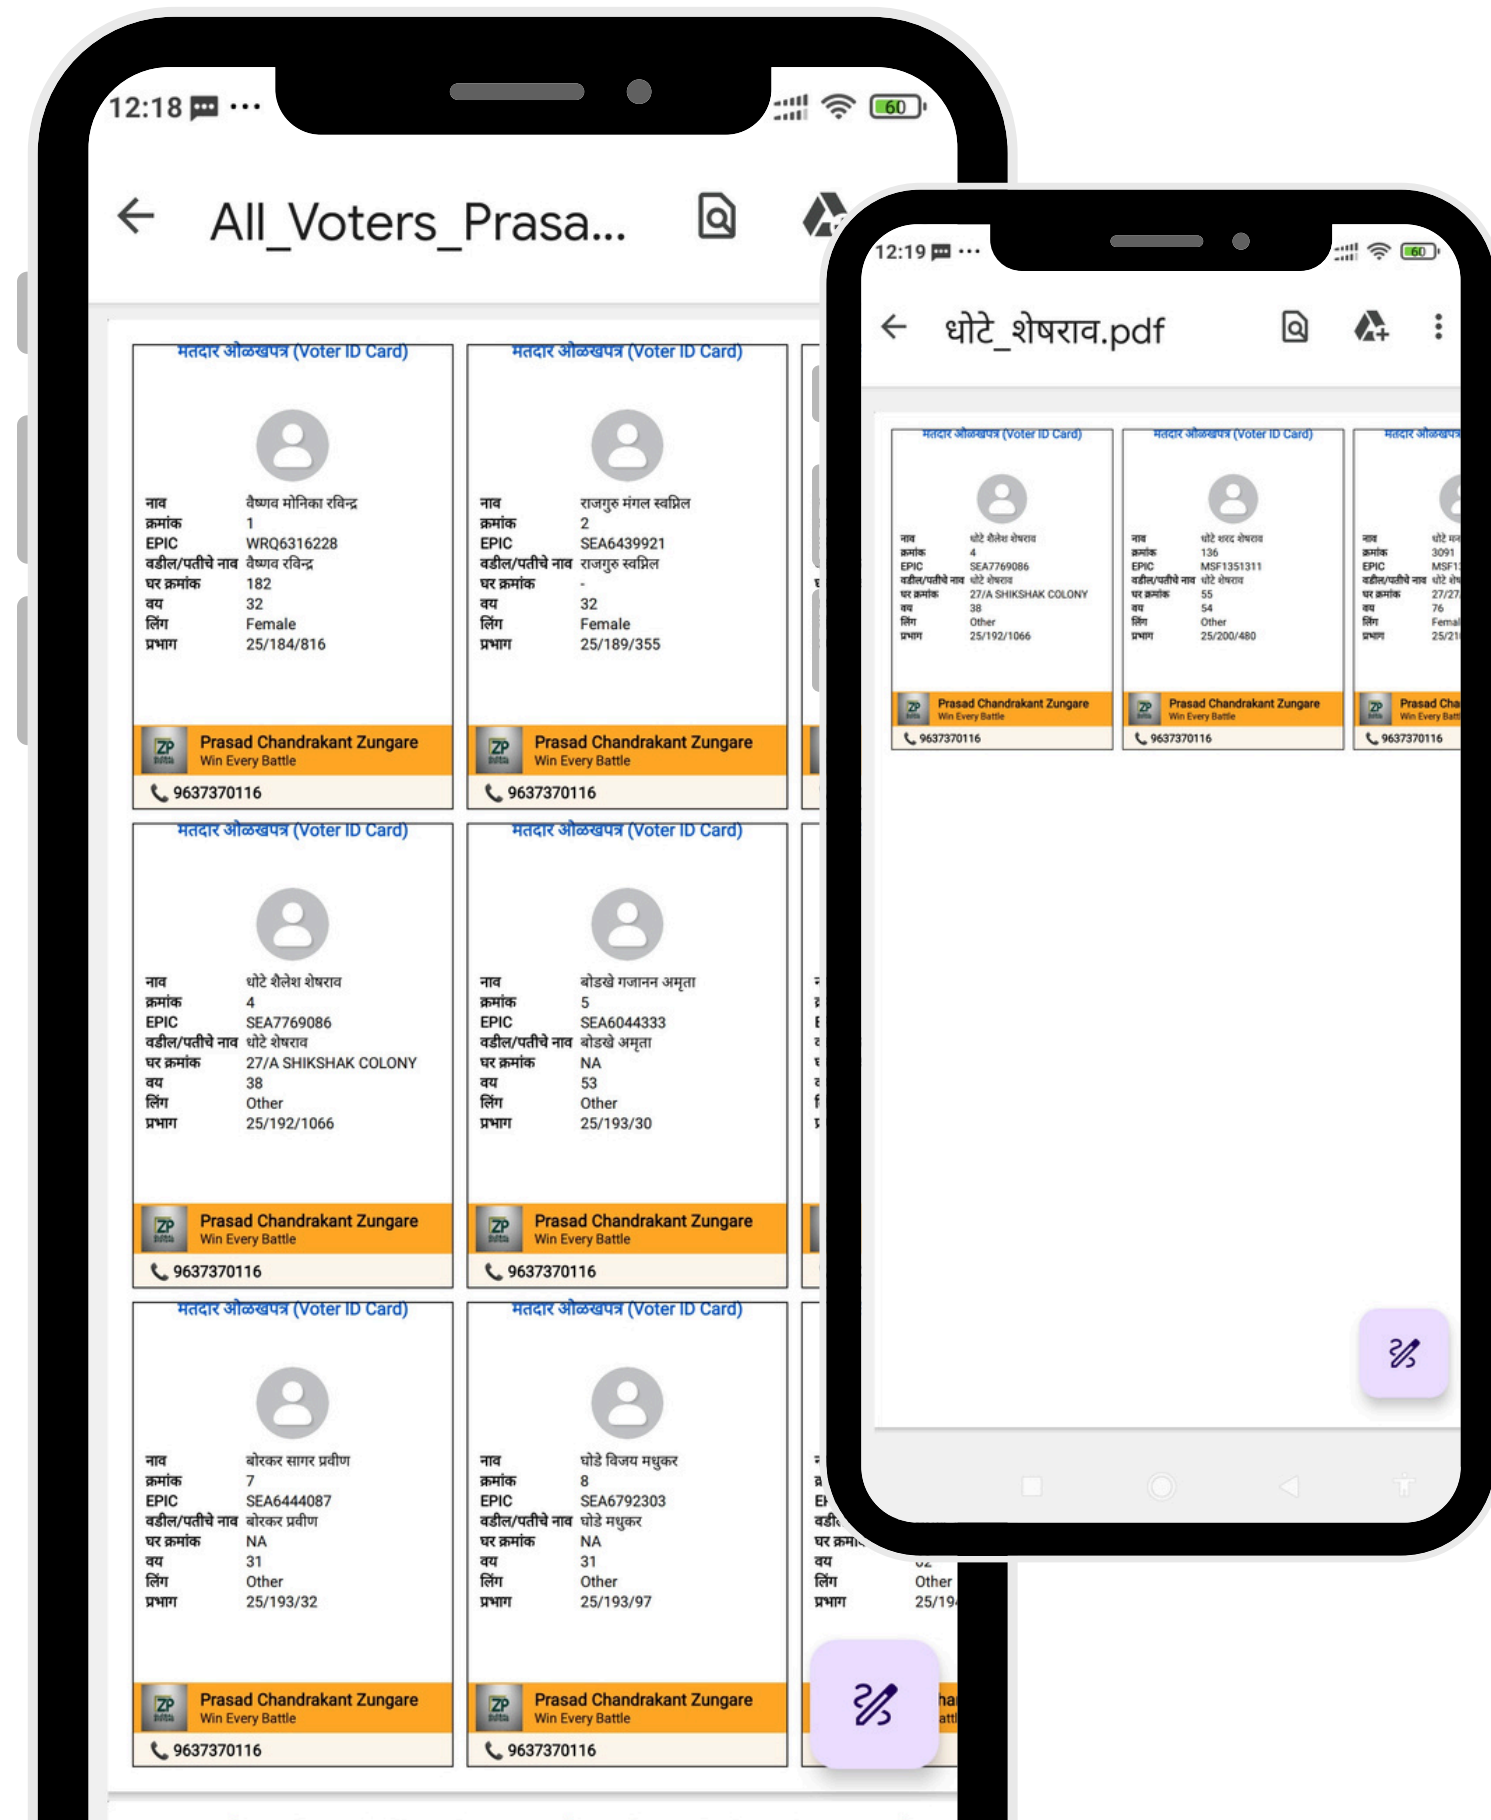

04

**Age Group**  
Segment voters by age brackets to understand demographic trends.

05

**1. Gender**  
2. Filter voters by gender for better analysis and targeted planning.

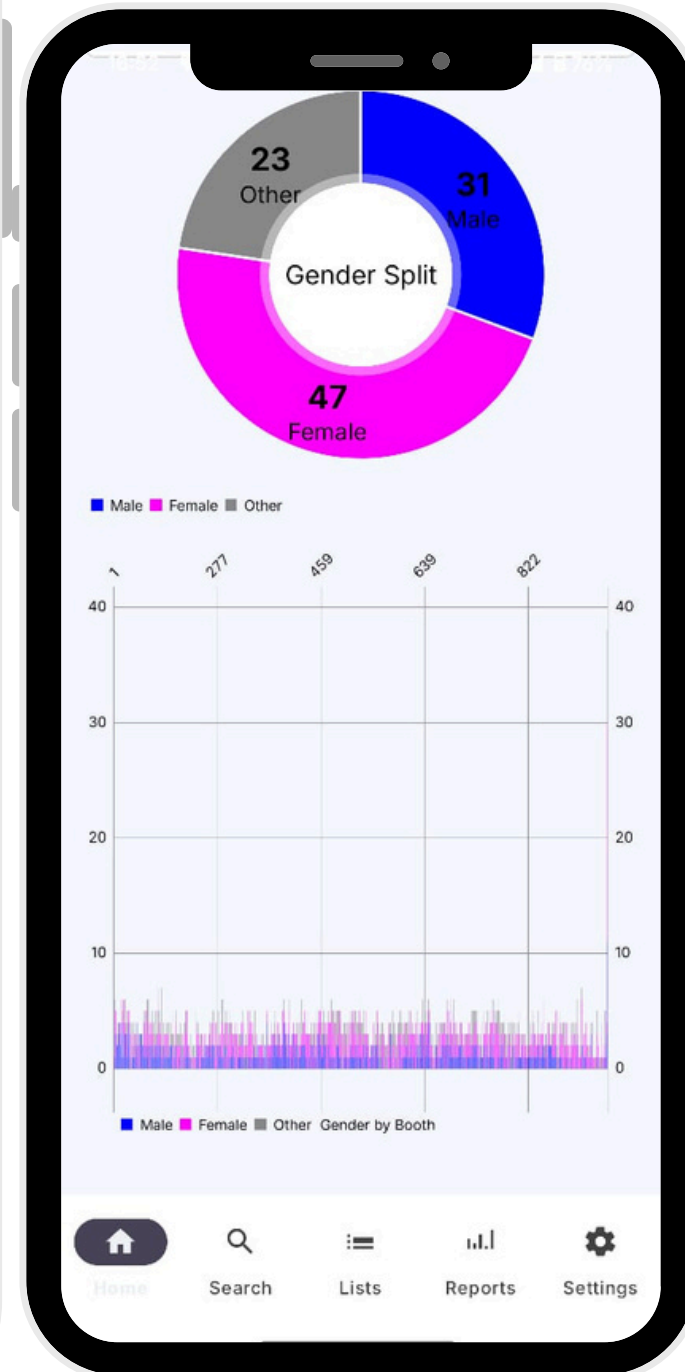

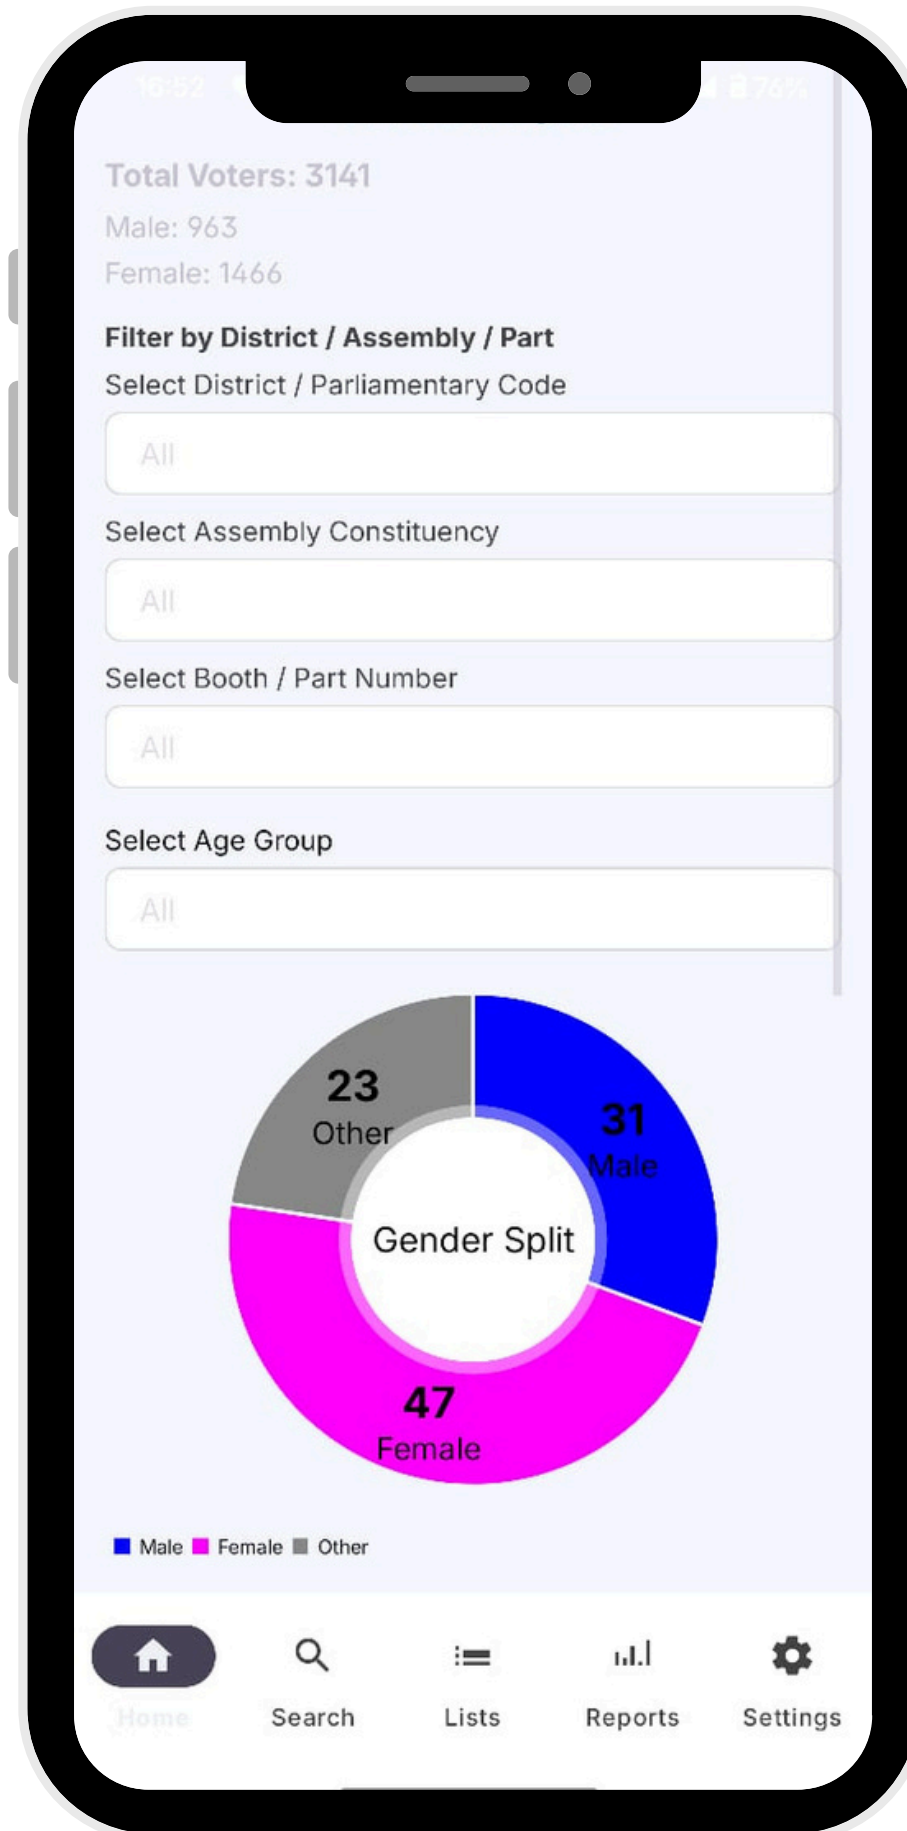

# Pdf Generation

Create organized and easy-to-share PDF reports in just one tap:

1. All Voters PDF
2. Generate a complete PDF list of all voters in your database.
3. Family PDF
4. Create a grouped PDF showing voters organized family-wise.

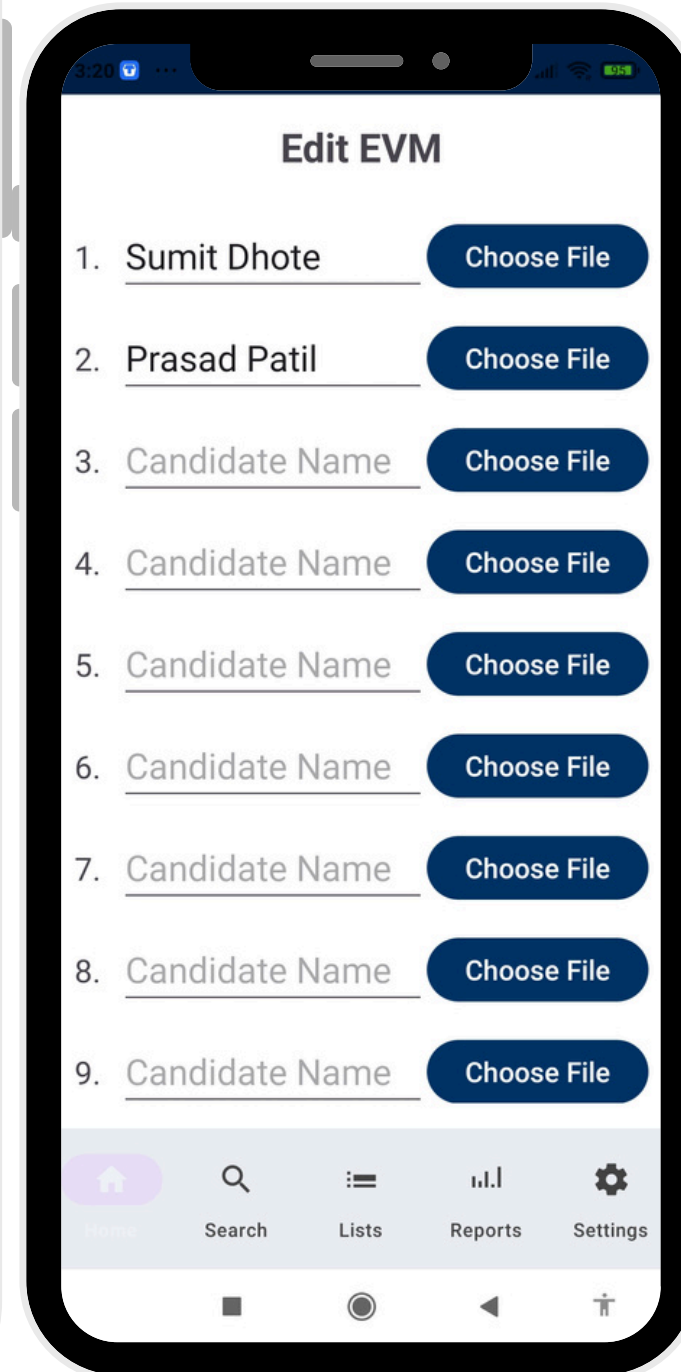

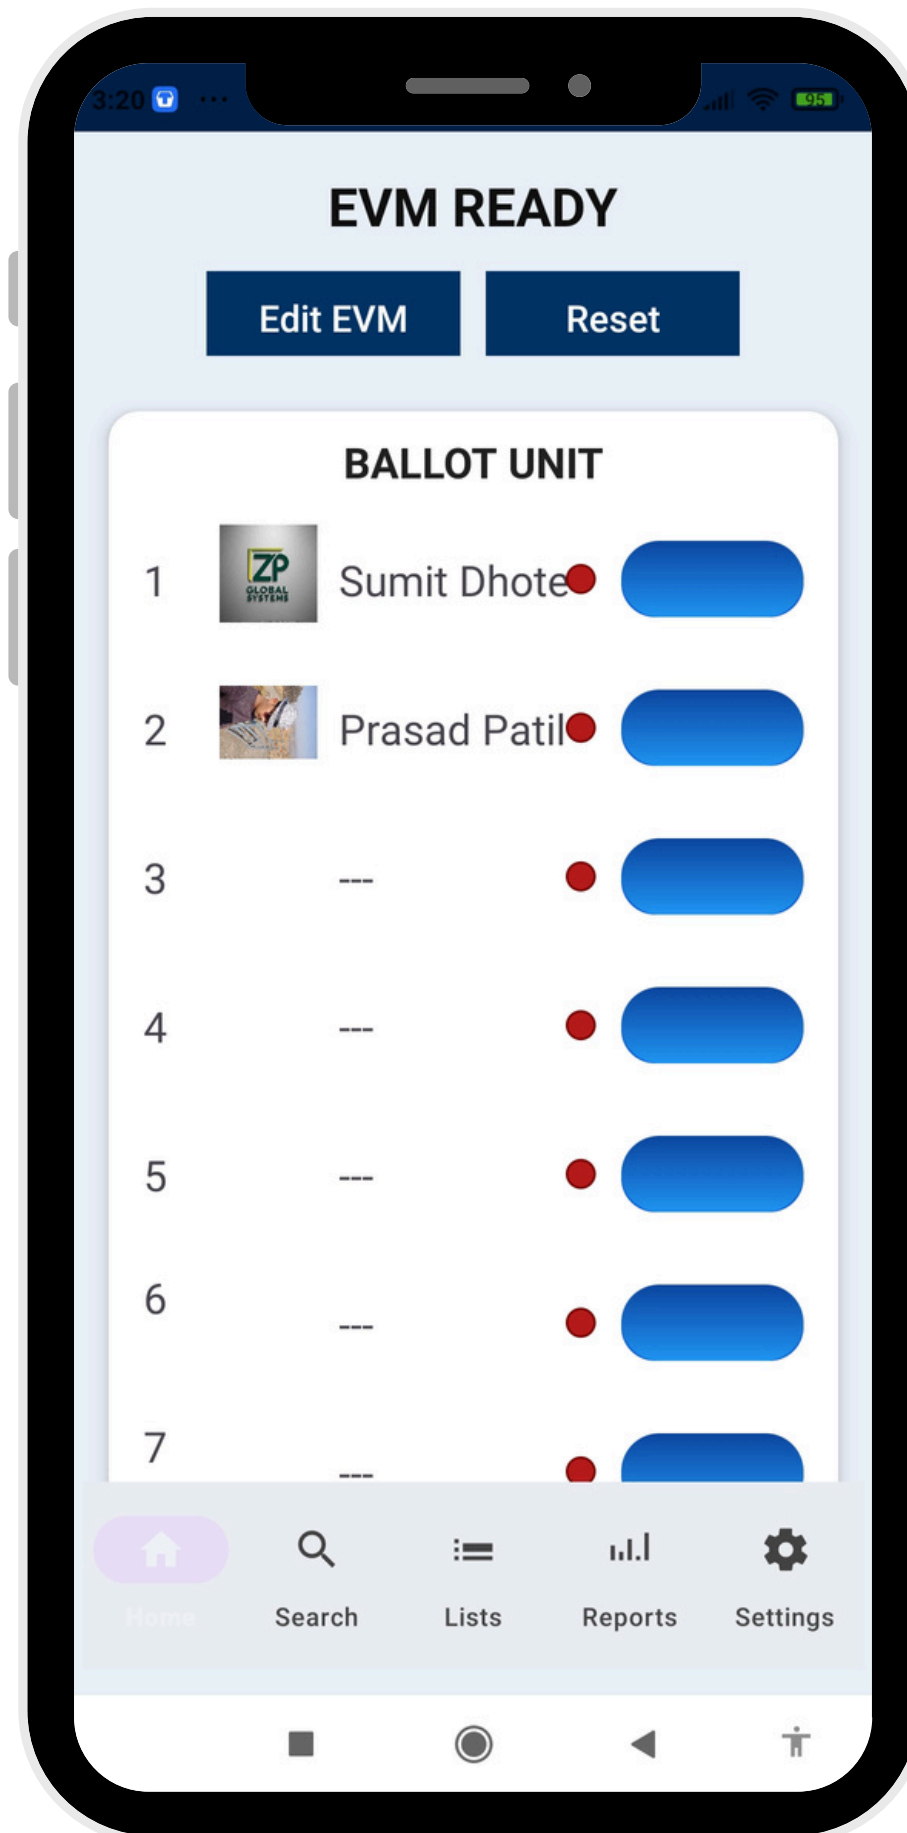

# Voter Analysis

Gain powerful insights with visual analytics designed to help you understand your voter base at a glance. Our system provides detailed breakdowns using pie charts and bar graphs across key categories:

- Age Groups – Understand voter distribution by age.
- Districts – Compare voter counts across districts.
- Booths & Parts – Analyze booth-wise voter strength and patterns.
- Assembly Constituencies – View constituency-level segmentation.
- Gender-Based Insights – See male, female, and other gender representation across all categories.

Clear visual dashboards make your analysis faster, smarter, and decision-ready.

## **EVM Realistic Simulation**

Experience the closest digital version of real election voting with our EVM (Electronic Voting Machine) Simulation. Designed to look, feel, and function like an authentic EVM, this feature helps users understand the voting process in an interactive and practical way.

What You Can Do:

- Create Your Own EVM Setup
- Add candidate names, election symbols, and customize your mock election in seconds.
- Realistic Voting Experience
- Users can press the button next to a candidate's symbol—just like on a real EVM—making the simulation ideal for demonstrations, training, and practice.
- Instant Vote Counting
- View results immediately after the simulation, with accurate counts for each candidate.
- Perfect for Training & Education
- Great for schools, political teams, awareness programs, and anyone who wants to learn how an EVM works without needing a physical machine.

Bring the voting experience to life with a system that feels truly real.

# Family

01

## Search Families by Head of Family

Quickly find families organized under the registered head of the household.

01

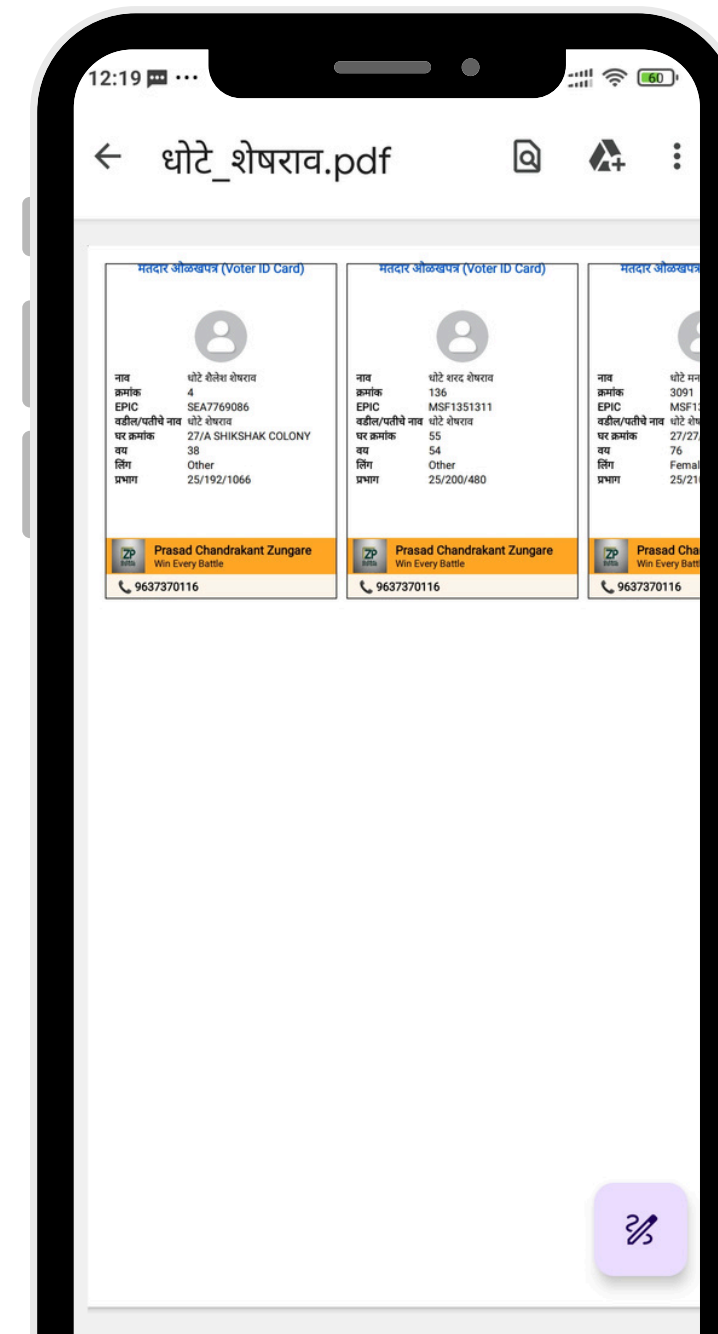

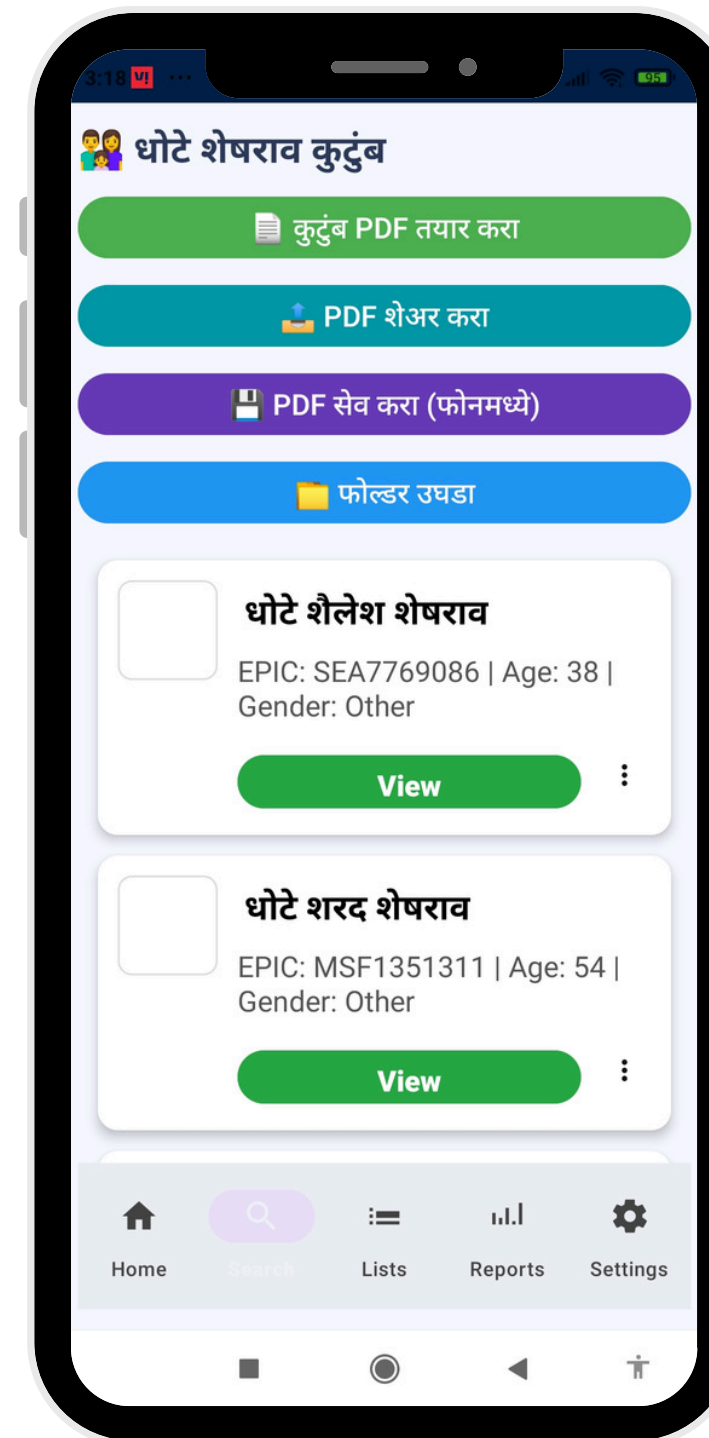

## View Family Members

Instantly see all members linked to that family group.

02

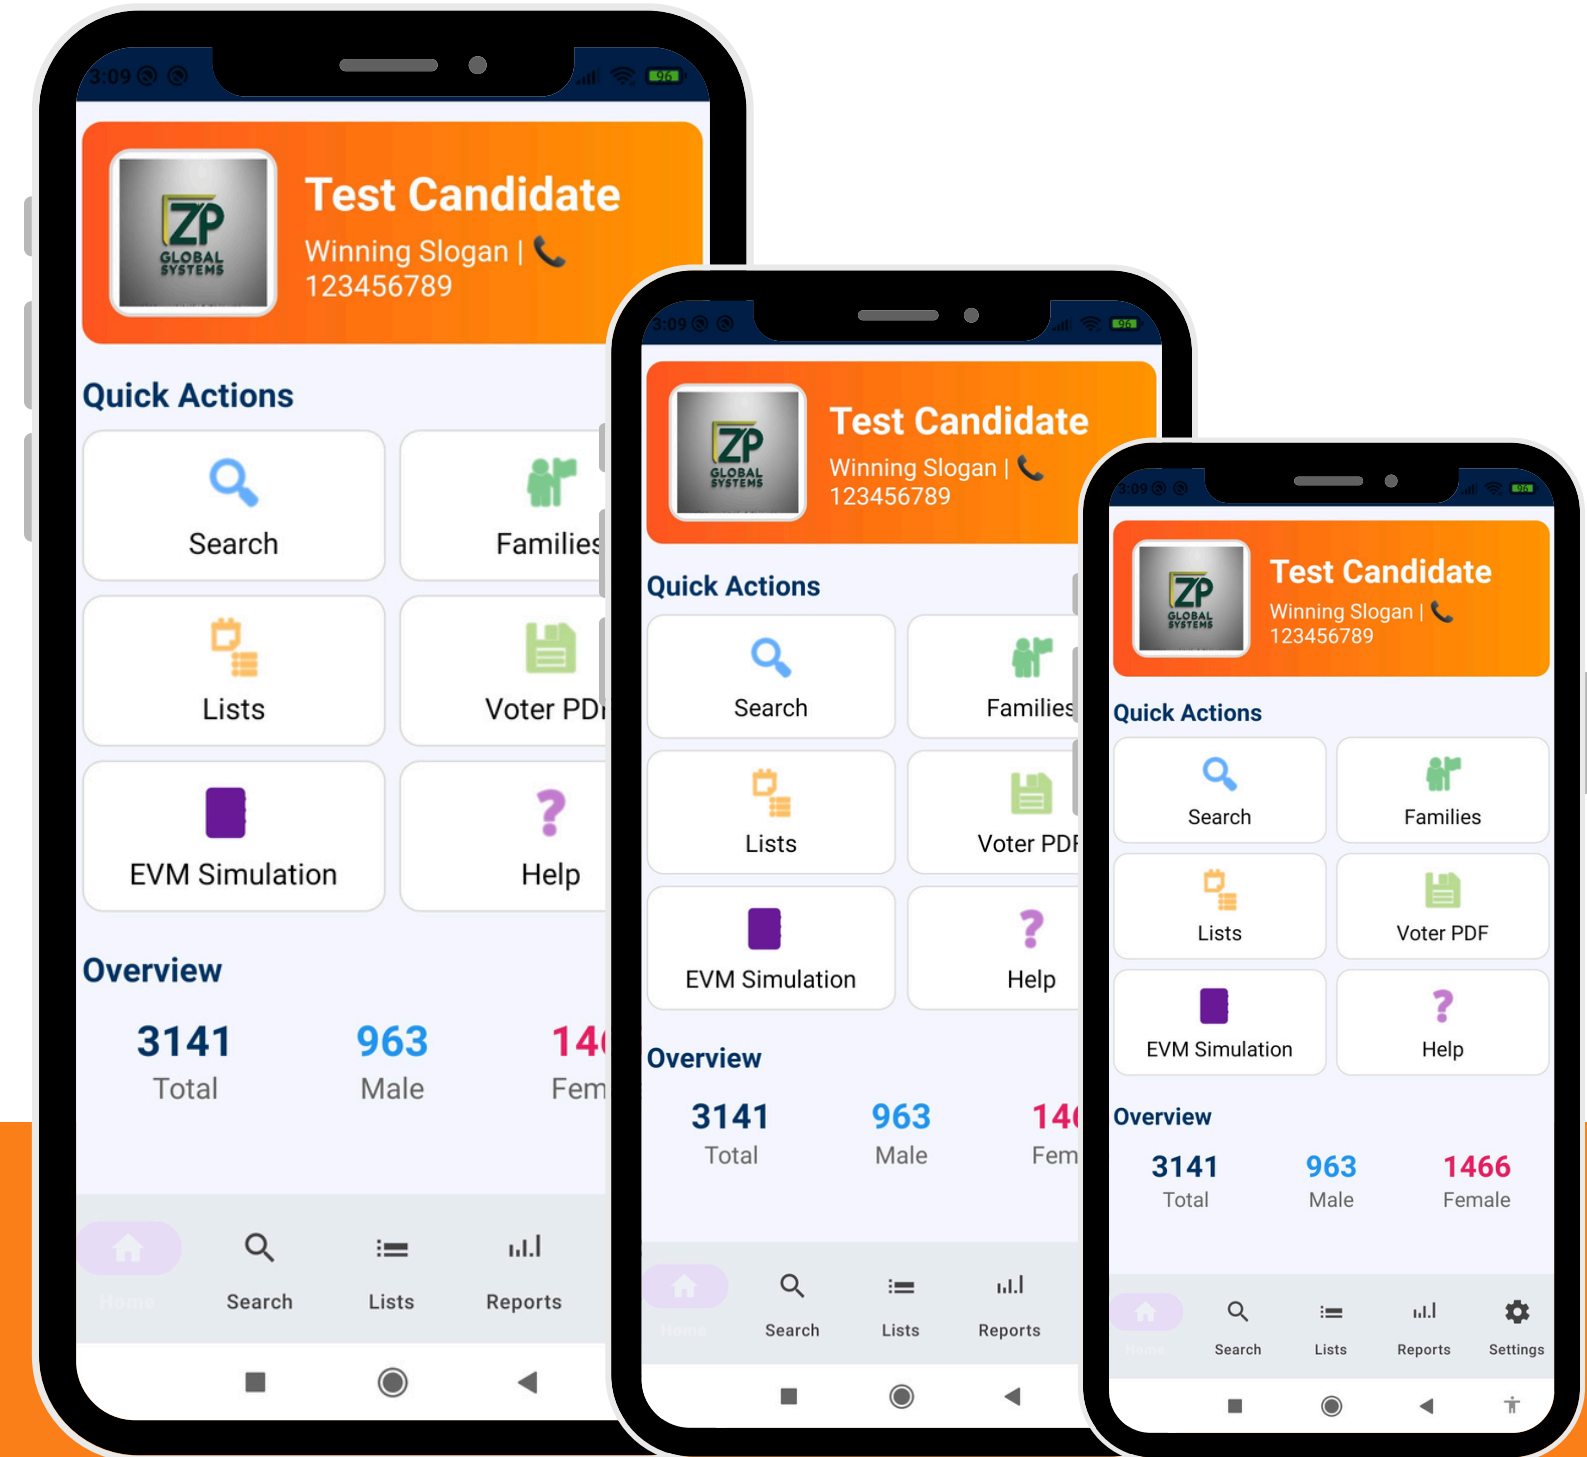

## Generate Family Voter Cards

Create and share customized voter cards for the entire family in one go.
